DRAFT RACE FORETOLD

HEARING FOR RADICALS

Colidge Guests in Prediction

Sacco-Vanzetti Plea Wins

Justice Grants Review of Case by Full Bench of Supreme Court

Pair Removed from Death Cell as Guard About Prison Relaxes

BOSTON (R.D.) Aug. 11. (P)—President Coolidge intends to make a final decision next year regarding the Radical nomination, a group of his supporters said yesterday.

The two were dismissed from the department the day after he entered their plea of guilty to perjury charges.

SECRETARIES OFFER AID IN CHEST DRIVE

An offer to "get behind and do my best to help" the Lehigh Community Chest in its forthcoming annual campaign was received at Chest headquarters yesterday from the Associated Secretaries of Southern Indiana, in a letter by the secretary, Mr. Scott. "We consider the people who were here guests to us," he said, "and we know that if he will run if he is nominated for President in 1928."

The judge approved the hearing for the two men to his dismissal of their petition for a writ of error after a conference with Arthur D. Hill and Elias Field of defense counsel, and Atty. Gen. Reading.

Judge Sanderson signed the copies of the bill of exceptions, writing:

"Allow these exceptions so far as I can see."

Justice Briley then officially called the Supreme Court into session at 9:30 Tuesday morning to hear the case. The court will consist of five justices.

COOLIDGE'S HOPEFULS

Coupled with the dramatic respite last night as the two starved men were allowed to march to their death, today's decision by Judge Sanderson has stirred Sacco-Vanzetti sympathizers to renewed hope of saving them.

As another move in the new fight for life, Michael Musmanno, of defense, filed a petition in the Deafness Super Court to the rearing of Judge Webster Thayer, original trial judge. This bill was signed by Attorneys E. Hull, Evans and Field.

Exceptions were taken to Judge Thayer's denial of motion for a new trial and his denial of the petition for a stay of execution, so the bill was allowed by Judge Thayer in order to get the whole case again before the Supreme Court.

One bill of exceptions was based on Thayer's refusal to withdraw from the case in favor of another judge.

COOLIDGE'S NOMINATION

The possibility will be no

to nominate Mr. Coolidge

for a second term, it was decided, in spite of the fact that he has been nominated in spite of his opposition to the nomination of Mr. Coolidge.

COOLIDGE'S VIEWS

Representative Munson was asked to be thought. Mr. Coolidge said:

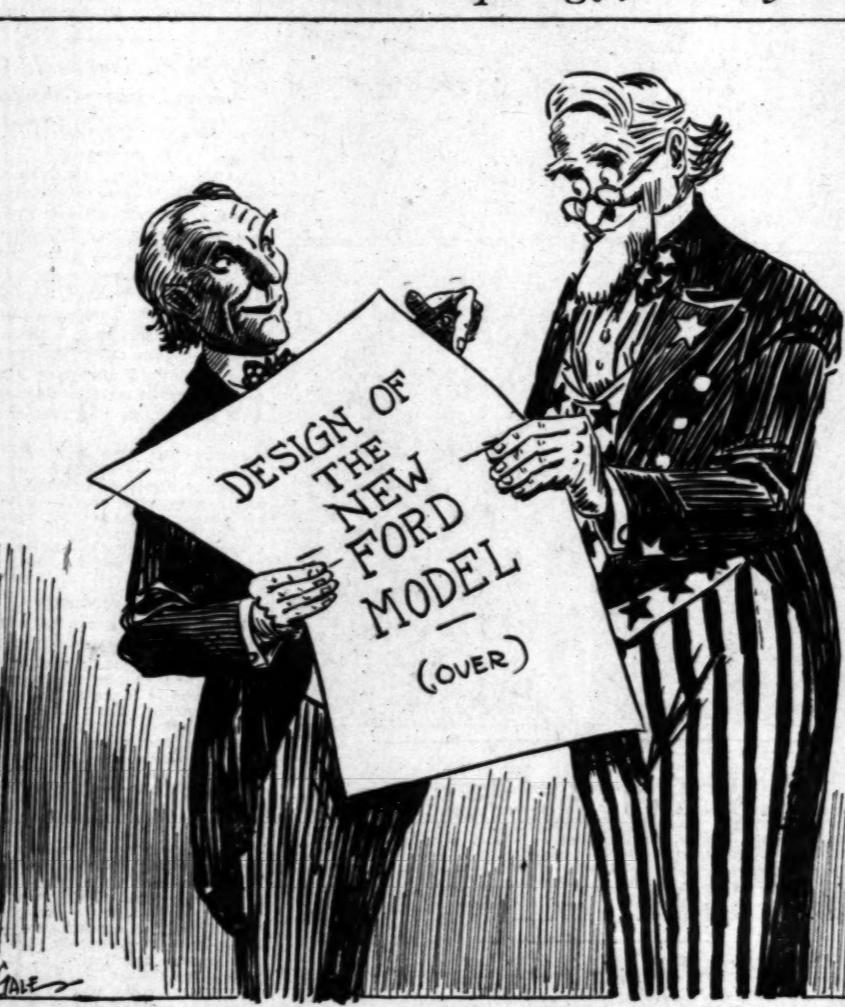

"I have nothing to say."

He added that delegation doubtless

Vanzetti today drank coffee at two

IRISH STATE FACES NEW UPHEAVALS

De Valera and Henchmen Take Oath, Enter Dail and May Oust Cosgrave

DUBLIN, Aug. 11. (P)—The recent assassination of Kevin O'Higgins, Vice-President of the Free State Council, and the measures which President Cosgrave's government adopted in the face of that murder, had surprising and unforeseen consequences, which now threaten to upset the Conservative government and completely revolutionize the political situation in the Irish Free State.

Among the government's measures one to compel all candidates at elections to take the oath of allegiance to the British crown before going to the polls. This measure was expected to split the Fianna Fail, the Republican party headed by Eamon De Valera, whose members steadfastly refused to take any oath. Instead, this government moved half Fianna Fail into a united determination to subscribe to the oath.

This decision resulted today in forty-five Republican Deputies, including De Valera himself, taking the oath and assuming their seats in the Dail for the first time. The Republicans previously had let it be known that they consider taking the oath of loyalty formal, so that those who are concerned as to whether they are concerned as to whether they subscribe allegiance only to the Irish Free State.

The advent of the Republican Deputies to the Dail gave the opposition just enough votes to upset the government, and it is stated that they have agreed to work together. It was said tonight, however, it is not expected that any Republican Deputy will take office if a new government is formed.

LIQUOR SHIP WITH NEW NAME CAPTURED

NEW YORK, Aug. 11. (P)—Technically classified by the Coast Guard as a prize ship, the German freighter that has changed its name at sea with authority, the British trawler Sebastopol was seized off the narrow with a load of 5000 cases of liquor valued at \$100,000. Bootleggers from the Seafarers Union had been painted over the original name, although the ship's papers showed her to be the Sebastopol.

SOVIET OUT OF CHINA

Last Red Adviser Quits Hankow

Effort to Form Communist State Turns Chinese Against Russia

Balking of Intervention by Coolidge Breaks Hold of Moscow

[Copyright, 1927, by Chicago Tribune] SHANGHAI, Aug. 11. (Exclusive)—Chapter 1 of the Russian Communist experiment in China was closed today when Gen. Zolotovitch Galena, the high Soviet military adviser to the Chinese Nationalists, departed from Hankow for Russia. He was the last of the Russian advisers here.

Like many other Russians who have been connected with the Nationalist movement, Gen. Galena returned to Russia over the long, historic trail connecting China with Russia, across Mongolia.

HELPED NATIONALISTS

Gen. Galena took with him a fleet of communists and advisers, and as did Michael Borodin and other advisers who departed a few weeks ago. Although M. Borodin said before his departure: "I still have another string for my bow," most persons familiar with the situation in China believe the Communist influence rapidly is waning and will shortly disappear, provided the United States and other powers now pursue a policy in China which will not give the Chinese a further excuse for a Russification.

That the Russian help was an important factor in the Nationalist success is unquestioned, particularly respecting military advice and propaganda. The latter is similar to the propaganda the Soviets used in consolidating control in Russia.

FIGHT OVER START

At least five of the pilots agreed with him. But their agreement had split the flying camp wide open only a few hours before. The five wanted a forty-eight-hour postponement and four others insisted they were going to fly.

Those who wanted to stay are Arthur C. Goebel, Los Angeles; Norman A. Goddard, San Diego; Martin Jensen, Honolulu; Charles W. Parkhurst, Loma, Ill., and William P. Errett, Dallas, Tex.

Those who wanted to go are John "Auge" Pedlar, Flint, Mich.; Livingston G. Irving, Berkeley; Bennett H. Griffin, Oklahoma City, Okla., and John Frost, Los Angeles.

The holdover camp is backed officially by the pilots and by high officials. They stand firm in their previous announcement that they will not qualify a plane which has not passed pilot and navigation tests; that these tests must be completed by 10 a.m. tomorrow to obtain a cash award; that any pilot who takes off without the approval of the United States Department of Commerce will be ineligible for the two cash prizes, will face a fine of \$500 and revocation of his license.

Tonight Mr. Irving was the only pilot who stood so qualified and even this honor was tinged with the backwash of a bitter argument with the navigation inspector, Lieut. Ben H. Wyatt.

PILOTS SPLIT

The pilots split after twenty-four hours of the most hectic arguing, bickering and cabining that has been experienced since Dole first proposed the air derby. Previously they had been almost a unit in opposing Inspector Wyatt's ultimatum that they would have to conform to the most stringent kind of trials. He insisted they were ready; the die was cast and they wanted to go.

But many things have happened in twenty-four hours.

The tragic crash that brought down to earth George Correll and R. S. Wagener at Point Loma yesterday had its temporary reaction and gave way to the traditions of the skies.

Then came today's crash of the Spirit of Los Angeles, and the almost miraculous escape from death of Capt. James L. Giffen, Navigator "Ted" Lundgren and Lawrence Well of Bakerfield, a passenger. Correll and Wagener had drawn No. 1, and in the race for No. 2, Correll and Lundgren had what flyers call a freak ship. Two in a row didn't put the human eagles into a frame of mind that was any too healthy.

MANY TESTS IN TESTS

The navigation tests put to them by Wyatt yesterday failed to sift as accurately as they might have. Even Irving was off on his compass, but he got around to miles the islands if he gets that far.

If this were not enough, the flight officials here, in a secret meet-

HAWAII FLYERS BATTLE OVER HOPPING OFF TODAY

Four Want to Go, Five Don't, While Officials Remain Up in Air on Qualifying Entrants

BY FLOYD J. HEALEY
"Times" Staff Correspondent

BAY FARM AIRPORT, OAKLAND, Aug. 11. (Exclusive)—By unanimous consent of the nine pilots now here for the proposed Honolulu air race the start of the flight was postponed tonight from tomorrow at noon to Tuesday at noon. Following a stormy meeting which started shortly before 10 p.m. but broke up much sooner than had been expected, Lieut. Ben H. Wyatt, naval inspector whose navigation permit is essential for the sanction of the Department of Commerce, announced that each of the aviators has affixed his signature to a written agreement agreeing to the postponement.

Their signatures amount to acceptance of Inspector Wyatt's contention that the planes are not ready to hazard the perils of 2400 miles of fog-filled ocean between here and Honolulu. Wyatt is not satisfied with the denials of accuracy shown by the navigators in their tests. He is not fully satisfied that some of the navigators chosen at the last minute are thoroughly competent.

BISHOP WILL AID BANKS

Residents Pledge \$600,000

More to be Raised in Other Owens Valley Towns for Closed Institutions

Criminal Action Against Two Wattersons Promised by District Attorney

BY C. A. JONES
"Times" Staff Correspondent

BISHOP, Aug. 11.—In efforts to rehabilitate the Inyo County Bank and its branches, which, according to Will C. Wood, State Superintendent of Banks, failed with a shortage of more than \$800,000, residents of the Owens River Valley here today pledged \$600,000 of their own funds.

Other meetings throughout the valley are expected to raise an equal sum.

The only Red Russians remaining in China today are a few consul and officials of the Chinese Eastern Railway in Manchuria. The back of the Russian interventionists, who were the ones who wanted to permit military intervention, following the Nanking incident.

The Communists believe the power's intervention would throw China into Russia's arms.

LEGISLATIVE RECESS FOR ARIZONANS

Labor's in New Special Session Deferred Until October 24, Next

PHOENIX (Ariz.) Aug. 11. (P)—Nelson T. Johnson of Oklahoma was appointed today by President Coolidge to be Assistant Secretary of State. He succeeds Robert Olds, who was recently appointed Undersecretary of State when Joseph C. Grew was named Ambassador to Turkey.

WASHINGTON, Aug. 11. (P)—Appointment of Nelson T. Johnson to be an Assistant Secretary of State brings into the group of assistant secretaries the chief adviser of the State Department on Chinese and other Far Eastern affairs.

Johnson now is chief of the division of Far Eastern affairs and has been connected almost exclusively with Chinese service since 1907. He previously has appeared as a student interpreter in China. Johnson has been successively through all grades of the consular service in China.

HOSPITAL BIDS RECEIVED

WASHINGTON, Aug. 11. (P)—Approximately seventy-five bids for construction of a 250-bed tuberculosis hospital at Tucson, Ariz., were opened today by the Veterans' Bureau. The estimated cost of the hospital will be \$1,000,000. It was said at the time of the award of the contract that the building will be completed by December 1.

The new special session resulted in the confirmation of the Governor's appointments to the new highway commission.

FORD TAKES FIRST FLIGHT

"It's Great," Says Flivver King as He Lands After Ride With Col. Lindbergh

DETROIT, Aug. 11. (P)—The famous flying team of "We"—Col. Charles A. Lindbergh and his Spirit of St. Louis—made additional aviation history today. They persuaded Henry Ford and his son Edsel to make their first flight.

Visibly pleased by their experience both the automobile manufacturers and their son took a second ride on one of their own tri-motorized aircraft planes while Lindbergh alternated at the controls with Harry Brooks, chief Ford pilot.

NOT content with simply riding

first Edsel and his father sat at one of the seats of the dual control and observed at first hand the technique of the air.

It was great; there's nothing to it," said the elder Ford's comment at the conclusion of the first flight. Edsel made similar comment and added that he was pleased to have made his first flight with Lindbergh and in the spirit which he had upheld the historic trans-Atlantic flight.

Overcoming his opposition to going aloft, Mr. Ford donned suitable flying clothes and climbed into the cabin of the Spirit of St. Louis. The Ford airplane, which had been invited by Col. Lindbergh's invitation. Mechanics had rigged up an extra seat in the space reserved for gasoline on the planet's ocean hop. Rising gracefully from the ground, Lindbergh and his son Edsel taxied around the field and then circled the Ford estate and laboratories at Dearborn.

RIDE OWN PLANE

Ten minutes later he landed. Mr. Ford climbed from the plane. Edsel

TRIPLANE CRASHES IN BAY AND OUT OF HAWAII RACE

Spirit of Los Angeles Wrecked in Landing at Oakland but Three Flyers Escape Unhurt

BAY FARM AIRPORT, OAKLAND, Aug. 11. (Exclusive)—Hopelessly out of the Honolulu air derby, but with its three occupants saved as if by a miracle from its twisted wreckage, the giant triplane Spirit of Los Angeles rested tonight on the mud bottom of San Francisco Bay with one wing tip sticking forlornly out of fifteen feet of water. The plane crashed this afternoon as an attempt was made to land it on Bay Farm Field with its controls out of commission.

A few minutes before 1 p.m. the local engineer, it was the only triplane entered in the race, had two motors and was capable of carrying 884 gallons of gasoline. The ship was backed by a cordon of 4,000 spectators gathered along the board sides rails in automobiles parked hub to hub, raptly watching it ready to cheer the new arrivals and the faith of their backers.

Seconds later spectators were transplanted in a fleeing crowd, gazing in fear and clutching themselves to the ground in a mad effort to escape the thing that swooped not more than fifteen feet over their heads and plunged with its three wings making the signature obvious.

GAS LEAK REPAIRED

The ship was delivered to Giffin and Lundgren aboard. It took off at 4 p.m. and headed north but soon developed a gas line leak and Giffin came down for repairs. Giffin took off again at 6 a.m. today with Welli as additional cargo.

Because of its construction, the plane already had been given its nickname by the flyers on the field. To them it was the "Stack O'Wheats." Its three wings making the signature obvious.

CONTROLS NEARLY HIT

No less appalling was the realization that the controls had been restored, that if the ship had been lower when it careened over the side fence, scores of spectators probably would have been killed or injured and innumerable automobiles wrecked.

Passengers were there in the plane when it went down, but surviving in the mud. Capt. James L. Giffin, Long Beach attorney and aviator, was at the controls. Theodore Lundgren of Los Angeles was handling the navigation instruments and Lt. Edward C. Welli of Bakersfield, a friend of Capt. Giffin, was aboard as passenger.

Faulty controls caused the crash, Capt. Giffin declared. In the light of his explanation, his ability to maneuver the great plane as well as he did to a wreck that saved possible scores from harm was considered by other pilots little short of marvelous.

CONTROLS FAULTY

"The crash," he explained, "was due to the ship failing to control properly and the failure of the motor to function properly. We came up to the distance from Bakersfield with the stick (control rod) tied forward to compensate for a heavy tail. As we came in over the field the controls failed entirely."

"As we settled down, a gust of wind caught her and she lit off on the ground. We turned on both motors and she began to swing to the left. Then we cut out the right motor, hoping that the left motor would pull her up. This it failed to do."

"Then we settled down with both throttles and both Welli and myself tried the right rudder and threw the stick entirely forward to the right. But she continued to swing to the left until she lost all her forward speed."

"The left lower wing caught in the water, the ship was cross-winded, pulled into the water and cracked up."

CROWD SYMPATHETIC

Spontaneous sympathy broke from the crowd surrounding him, as he stood, still wet from his immersion in the bay. Giffin shrugged his shoulders.

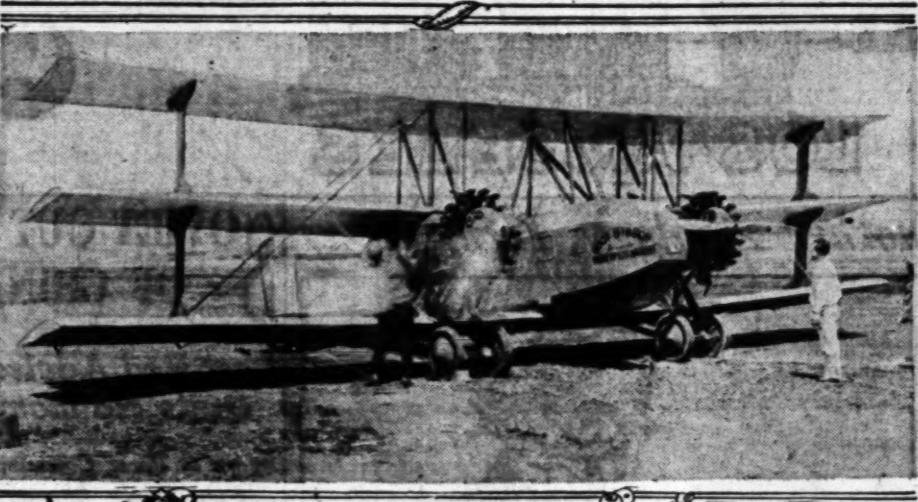

"Come on out," he replied and walked disconsolately away for a change into dry clothes, later to direct efforts at salvaging as much as possible from the wreck.

The triplane was constructed at the International Aircraft Corporation plant in Long Beach and was designed by Edward Fink, aeronautics

The waiting crowd of reporters for a knife as he was hauled out of the boat which brought him ashore from the triplane. A dozen were handed him. He took one and plunged the blade into the cover of his wrist watch.

"Let's see if this thing leaks," he said.

Evidently it didn't, for when the cover flew open, he cried joyfully:

"Well, my sweetheart didn't get wet."

The reporters crowded around to see the "sweetheart."

It was a picture of his mother, still dry.

A few minutes later Lundgren was telephoning Mrs. Sophie Lundgren at 459 Columbia street, Los Angeles, that he was safe, though wet.

COURT OF INQUIRY INTO PLANE DEATHS ORDERED

SAN DIEGO, Aug. 11. (AP)—Vice-Admiral Louis E. De Steiguer, acting commanding officer of the western battle fleet, today instructed Capt. Frank R. McCrary, fleet air force commander, to conduct a court of inquiry into the deaths of Lieuts. George Covell and Richard Waggoner, killed in a transoceanic commercial monoplane here Wednesday.

Covell and Waggoner had obtained special permission from the Navy Department to act as pilot and navigator, respectively, for the Tremaine brothers in the monoplane in the Hawaiian air derby.

As the machine came into the Bay Field from the southeast, it was about 3,000 feet high and appeared to be flying perfectly. Giffin circled the field once and then started down.

"Here comes the 'Stack O'Wheats,'" the crowd shouted. The triplane was still steady. The crowd subconsciously surged forward. Then it happened.

There was a puff of wind and the plane made a breath-taking plunge to one side to the left toward the south end of the field. One motor was still running.

"Both were roared."

With a ferocious lunge, the plane zoomed straight toward the crowd and automobiles.

ALL OVER QUICKLY

It was all over in a second. But the crowd, only a moment before wide-eyed with terror, was now wide-eyed with wonder.

The ventilator door on top opened. Out climbed Giffin, with Lundgren after him. A gasp of relief swept the field and roadway. They clutched for a few moments and then

up from the water a short distance away came first a hand reaching up from the water and then the head of Welli. He swam to the wing where Giffin and Lundgren were perched and a chord was up.

A friend, with a rope tied about his waist, swam out to the wreck and Welli came ashore, hand over hand, and was hustled off to the field hospital for an examination and dry clothing. Giffin and Lundgren stuck to their plane until a boat took them off.

CALIFORNIA GIVES EAST REALTY-HANDLING TIPS

Syndicate Plan, Honesty in Farm Land Deals, Fruit Problems Discussed at Convention

SEATTLE, Aug. 11. (Exclusive)—Eastern delegates to the twentieth annual convention of the National Association of Real Estate Boards today sat at the feet of California and learned much of the art of handling real estate. State commissions, assurance of honesty in farm-land transactions, the syndicate plan of disposing of real estate which kept Southern California from a boom debacle after the intensive growth of 1922 and 1923, and the experience of California fruit growers in the great development of their industry all were presented as examples and studied with interest.

The business battle of the future will be between communities rather than between individuals within each calling. Harry H. Culver, president of the Los Angeles Real Estate Board, vice-president of the national association, and favored candidate for the presidency of the national body, told the convention in an address today.

"Modern economic conditions call for the pinch-hitter in business," asserted Mr. Culver. "The present is the psychological time for business to organize not only to improve business methods but to knit together their forces for this new competition. There is need for such a business as that of real estate to start the preparation of a definite, thorough and constructive program that will enable it and permit it to go out into the field and put its commodity in competition successfully with other commodities."

SERVICE NEEDED

The realtor who thinks only of himself, only of his own business, no time for board or committee work, too busy to serve on committees, can sacrifice his abilities with selfishness. Just as you owe a duty to your city, you owe a duty to your board and these two mortgages can be paid only with that kind of money that you have.

"Without organization, real estate would find itself in the position in which California fruit growers once found themselves. Their fruit lay rotting on the ground. As individuals, they had no means of getting to the best markets. They paid high freight rates. So they organized, paid monthly dues, and with combined strength overcame all their trouble and began to make money. A ship would not run if it could not make port, and no real-estate man and no real-estate board can afford to attempt to be independent in this prosperous and progressive country of opportunity."

CO-OPERATION NEEDED

"You just can't go it alone. Your fruit will rot on the ground. Realtors must stick and support their real-estate association and their national association in their efforts of lifting up their business to the ultimate recognition it so plainly deserves."

Of the 50,000 realtors and salesmen in the country, less than \$ per cent come before him annually for discipline, reported Stephen Barnson, Real Estate Commissioner of California, and he predicted that when salesmen as well as brokers pass written examinations before receiving license, the proportion of delinquents will be much reduced.

Mr. Barnson said that the California Real Estate Commission investigates farm lands offered for sale to non-residents. The University of California and State Department of Agriculture and the county farm advisers aid in this work, he said. He declared that in order to remain in business in California, the real estate agent must act on the principle that no transaction is justified unless it yields entire satisfaction to the buyer and the seller. The commission settles real estate disputes at an average of \$100 daily, he said.

SYNDICATE PLAN EXPLAINED

The syndicate plan of developing real estate had an important part in saving Southern California from a boom after the intensive active period of 1922 and 1923, L. M. Roseberry, vice-president of the Security Trust and Savings Bank of Los Angeles, told the mortgage and finance division of the association this afternoon.

"Under this plan the title for land in a subdivision is held by a trustee and the purchaser has a responsible association with him to give him a good title, to insure installation of improvements and to maintain proper collections in collections."

The syndicate consists of a group of individuals which buys the tract for the purpose of selling it in parcels. The underlying principle of this plan is the same as that involved in the creation and absorption of bond issues—it makes capital from many sources and so gives it a good title, to insure installation of improvements and to maintain proper collections in collections.

"The syndicate plan for the downtown skyscraper and the bungalow in the suburbs, the apartment house and the farm occupied the attention of the nation for a month today. Taxation reasons for the shifting of business centers, an experience through which Pacific Coast cities are now passing, planning cities, modernizing real estate operations, development of co-operative apartments are a few of the subjects which the realty men discussed in general session and a dozen group meetings.

TAX WARNING SOUNDED

Major consideration was given taxation at the general session. Dr. Charles J. Bullock, chairman of the Harvard University committee on economic research, a national authority on public finance and taxation, discussed the tax problem developed through scientific investigation. Dr. Bullock pointed out that if the present rate in municipal taxation and expenditure continues, urban real estate values will peak as occurs in war. Cities under the influence of business activity, he said, are affected by an over-strong temptation to indulge in expenditures for what they will have to pay in a period of war, instead of in peace, as occurs in war.

Dr. Bullock concluded, is the only real hope of avoiding mounting tax disaster.

Shifting business centers and some of the influences which caused them were the chief subjects of a address by Shirley Ward of Los Angeles. The changes taking place in Pacific Coast cities were shown to be those common to growing cities, creating problems which must be met by providing other uses for property not longer required for the original purpose.

Repairs Finished on White House

WASHINGTON, Aug. 11. (P)—The White House is ready to receive the President and Mrs. Coolidge on their return from South Dakota.

Construction of a new roof and renovation of the third floor have been completed and approved by Col. U. S. Grant, Director of Public Buildings.

MIRACLE AUTO PROVES FAKE

Hidden Batteries Are Utilized to Furnish "Electricity Drawn from Air"

KANSAS CITY, Aug. 11. (Exclusive)—The miracle automobile of H. E. Ferrigo, propelled, according to its inventor, by electricity drawn from the air, was exposed as a fake in an investigation conducted by the blue-sky commissioner of Missouri and the Better Business Bureau of this city. The exposure was a great shock, as people had looked on the "miracle" as likely to supplant all forms of mechanical power and light.

Ferrigo had sold stock to the amount of \$40,000. Over a period of ten years he had given demonstrations showing the motor of the automobile running without visible source of power. The investigation revealed a number of small but powerful storage batteries concealed in the upholstering.

"Times" Daily Short Story

"THAT GAY YOUNG SET" Slightly Used

By LUCILLE VAN SLYKE

NOTE: This is one of a series of short stories, each complete in itself, in which is retold the uncivil war between the youngsters and the elders in an old-fashioned town

HARRY HERNDON was a motor car salesman. He was big and rather good-looking, and young and rather boisterous, and he had a plump but pretty wife and a small equity in a very small Spanish style villa in the newest part of Clairmont.

Clairmont seemed to him very happy hunting-grounds indeed. That had become a sub rosa overnight, with numerous enterprising young dealers subdividing beautiful old estates into lots, meant hundreds of new inhabitants who would automatically become "prospects." For Harry, whose business was to sell, that was the opportunity he wanted.

But there came a day when Harry dashed home to the little Spanish villa in a new, cream-colored roadster with a demonstrator's license plate hanging precariously on its bumper. He bought his plump little wife round the ears, almost wallowing in the air, and kissed her resoundingly on her way going down.

"Little woman," he exulted, "from now on just watch me go. I can't tell you how it happened, but one of the rich old timers over on the other side of the railroad tracks got me to go back to financially. So, in fact, of his own was capital, and he loaned me the money to start in the master of advancing credit."

But there came a day when Harry dashed home to the little Spanish villa in a new, cream-colored roadster with a demonstrator's license plate hanging precariously on its bumper. He bought his plump little wife round the ears, almost wallowing in the air, and kissed her resoundingly on her way going down.

"Little woman," he exulted, "from now on just watch me go. I can't tell you how it happened, but one of the rich old timers over on the other side of the railroad tracks got me to go back to financially. So, in fact, of his own was capital, and he loaned me the money to start in the master of advancing credit."

He grinned at her. "It wouldn't hurt the thing, and she had a sudden idea. She'd go to call on her dearest friend—and friend—Miss Babes Bliss, good measure, she put her small maid into the tonneau. And then she was darned grateful.

"The long and the short of it is that he's going to finance me. It's the chance of a lifetime. And, too, he's got a name that's on the big giant windows, and I'm going to buy out his share in the firm within the next five years, out of my profits. So, in fact, of his own was capital, and he loaned me the money to start in the master of advancing credit."

"If I do, even I have the money to buy a house with," she persisted.

"If we had the money that's tied up in that old boat, we could have a new house," she pouted.

"Harris would say, 'Forget it. You may think I haven't tried to sell it, but I've offered everybody on our sales force double commissions to sell it at half price. You wouldn't think it's such a cinch, if you ever tried it.'"

"If I do, even I have the money to buy a house with," she persisted.

"He grinned at her. "It wouldn't hurt the thing, and she had a sudden idea. She'd go to call on her dearest friend—and friend—Miss Babes Bliss, good measure, she put her small maid into the tonneau. And then she was darned grateful.

"The long and the short of it is that he's going to finance me. It's the chance of a lifetime. Root Chalks Up Twenty-first Win for Cubs

SPORTS

The LOS ANGELES Times

FRIDAY MORNING, AUGUST 12, 1927.

DELANEY WINS ON FOUL IN SEVENTH

DEFEATS LUQUE IN MOUND DUEL

Cub Hurler Given Sensational Support by Mates

Heathcote's Triple Decisive Blow in 2-0 Tilt

Chicago Squad Gains Game on Pittsburgh Pirates

CHICAGO, Aug. 11. (P)—Cliff Heathcote's triple in the third inning with English and Root on base enabled Chicago to shut out Cincinnati 2 to 0, in the first game of the series today and permit Charlie Root to mark up his twenty-first victory of the season.

The game was a great pitching duel between Root and the Cuban, Adolfo Luque. The Cuban had only five hits off Luque's delivery, three of which, however, came in the third inning.

Root was touched for six hits but was given sensational support by his mates, who scored twice in the fifth, breaking up Cincinnati's rally. Allen of the Reds made three of their six hits, two doubles and a single. The Cubs gained a full game as the Pirates lost.

INTERNATIONAL

The committee says the introduction of soccer and football competition, with the proper standards, should be part of the educational program. The committee provides for a camp of the objective of physical fitness under the direction of all "needless" minorities.

Gaines Defeats Mescall in Drive for City Golf Title

BEVERLY PLAY DUE NEXT WEEK

COLIMA FAVORITE TONIGHT

Pick Mexican to Beat Judge at Legion

Bert Colima

Who meets Mark Judge in the Hollywood American Legion feature tonight.

TONIGHT at the Hollywood American Legion Stadium, fight

fans will get a squint at one of the best fighters in California today; Bert Colima. The Mexican is meeting

Mark Judge of Arizona for the first time and folks do say the Mexican

has the title there is no good

chance of his flattening.

All the talk about Colima fighting

Mike Walker or Tiger Flowers will be shot if Mark Judge takes the

Mexican. When Flowers was champion of the middleweight division he

had the title for the title.

He would agree to meet the Mexican,

but only under the condition he be allowed to enter the ring over 180 pounds, which would mean nothing to Bert should he win the decision.

The Colima-Judge fight is expected to be a vicious affair because Judge is a pupil of Spider

NEVER BE SOLVED

The only question was whether Delaney could weaken Paulino sufficiently to be able to stop him later on because there was no chance of Paulino stopping Delaney. This question never will be solved and in all probability this is a terrible loss to the world of scientific knowledge but perhaps the human race can struggle along.

In the semifinal bout, a boy by the name of Joe Anderson from Covington, Ky., walked up and gave Dave Sherrill the needed confidence of Joe. Delaney gave a very hearty and unexpected slapping, losing the decision rather narrowly, because of Sherry's experience and his talent for slapping right back.

Sherry was very much surprised and pleased with the result that he had to fight this Mr. Anderson because he had been assured that Anderson was a tipover. Dave the local newsboy he will get his big shot.

Sgt. Sammy Baker will meet Joe Dundee for the welterweight title in Madison Square Garden in New York on Aug. 26.

He can repeat his victory over Mike Callahan the 29th inst. at Wrigley Field.

A wire from Steve Webber, Baker's manager, advised the New York soldier that he met Tex Rickard in New York yesterday and the promoter assured him that the go is a certainty if he can defeat Sherry. If Sgt. Sam successfully hurdles the local newsboy he will get his big shot.

BAKER TO GET FIGHT WITH
DUNDEE IF HE WHIPS MUSHY

Sgt. Sammy Baker will meet Joe Dundee for the welterweight title in Madison Square Garden in New York on Aug. 26.

He can repeat his victory over Mike Callahan the 29th inst. at Wrigley Field.

A wire from Steve Webber, Baker's manager, advised the New York soldier that he met Tex Rickard in New York yesterday and the promoter assured him that the go is a certainty if he can defeat Sherry. If Sgt. Sam successfully hurdles the local newsboy he will get his big shot.

JONES'S YOUTH EXPECTED TO
COUNT IN BOUT WITH STECHER

Age is expected to play a great part in the coming world championship finish, wrestling match between Joe Stecher, present title-holder, and "Tex" Paul Jones, the book book-scorer expert from Houston, who claim in the big event at Lou Dard's all-star show at the Olympic Games.

One of the big questions at the present time is whether or not Tex

like Paul will win before the speedy attack and strength of the new mat sensation. Jones was never better than he is today. He is still showing the speed he displayed against the last day's workouts at the Los Angeles Athletic Club. He feels sure Stecher will not be able to stand the pace he intends to set at the title bout.

STECHER has been wrestling for sixteen years, winning the title for the first three times. He is now 21. He is now 32 years of age, seven years older than the Texan, and seems to be going as strong as ever. The same was true of John Pesek, "Nebraska Tiger" who fought for Stecher. Pesek is known as the "uncrowned king" of the heavyweights. He, too, is 32, but the tiger in him and the experience he had gained in his

thousand or more battles failed to stand up before the rugged strength, ability and speed of Jones here last week.

The Texan beat him in less than an hour. He beat a man who defeated him in his first year, and then had the victory taken from him when it was claimed he had strangled the champion in obtaining the winning fall.

One of the big questions at the present time is whether or not Tex

like Paul will win before the speedy attack and strength of the new mat sensation. Jones was never

better than he is today. He is still showing the speed he dis-

played against the last day's

workouts at the Los Angeles Athletic Club. He feels sure Stecher will not be able to stand the pace he intends to set at the title bout.

HALT DUNDEE-MITCHELL BOUT

MILWAUKEE (Wis.) Aug. 11.—The referee halted the Joe

Dundee-Mitchell fight in the sixth round this afternoon when both fighters appeared to be stalling in their scheduled ten-round bout.

After repeatedly taking the two men from clinches and warning them several times, Referee Geiger waved them to their corners. The

status of the men.

NEIL CLISBY KNOCKS
WILD BILL CUSICK OUT

Neil Clisby tamed Wild Bill Cusick last night, winning the scheduled ten-round

main event via the knockout route in the eighth stanza. A terrific right to the chin did the business. Cusick lay down for nine rounds in the fourth and sixteenth rounds.

Other bouts resulted as follows:

Young Lancho and Tony Tovar fought a six-round draw. Mike Cardona knocked Bobby Payne in the second, Bud Eades and Ted Williams went four-rounds to a draw, and Sam Baker beat Bert Sampson.

TRIPLE PLAY TRIO

Three triple-plays have been made this season by teams in the B.W.R. tricounty baseball league in Min-

nnesota.

FOR WOMEN ONLY

Golf clubs exclusively for women

are planned in three cities—Detroit, Chicago and New York.

Zorilla and Sangor Rated on Even Terms

Santiago Zorilla and Joey Sangor are quite likely to go to the post Tuesday night at even money. Ring followers are pretty evenly divided over the choice over the Olympic affair next week, which promises to be the fastest dual glove ever staged on the property.

Zorilla's strongest backing is in the city and Wilmington where he has completely stolen their hearts by his wonderful and native showmanship.

The Olympic box office has been asked to open ticket offices in these two suburbs to accommodate the fans there. Nearly 1000 reservations have already been made from persons of these districts.

Both have two little

fellow appeared to be as popular as the Panama Indian and the Milwaukee featherweight who but recently gave Bud Taylor a nasty licking.

Sangor also stopped Taylor with a terrible right to the body. He had the now-reigning bantam king beat double from the punishment.

Lew Sangor, brother of the little freckled-face Joey, is breaking a few records himself. He is the official bantam boy of the day. Tom Lee describes the recent Sangor-Taylor fight one gathers that the Taylor California fans know and the ones Joey

boxed are two different guys.

When anyone tells a Los Angeles audience that Taylor is the best fighter in the audience thinks the editor is a queer bird who has slipped the guards at a queer institution.

Joey, himself, says he would rather face Taylor than the Zorilla speed.

"Usually I'm faster than my opponents," says Sangor. "But if Zorilla doesn't break them he says he'll look slow."

The Pedro Amador-Joe Guerrero semi-wind-up is also close picking. Amador is another goer like Zorilla and Guerrero is a consistent winner and the smaller club Tommy Milton, who boxed in New York in the equal of Newsboy Brown, Izzy Schwarz and Fidel La Barba, boxes Charley Sullivan in the other six.

ATHLETICS TO FIGHT
OLD QUAKER BLUE LAW

Vic Morrison is coming here from Oakland to take on Patrick Dougherty, the Quaker Blue Law fighter. Morrison is exceptionally good nights. He believes he will beat Morrison, but the wise gents in the fight game string with Vic.

Just to make things interesting Sandy Garrison and Jim Schwartz are like the class here. Little is known of Jimmy. Garrison looks like a comer. Rickey Rosales and Goldie Hess will hold their own on the card. Red Humphries opens the works with Art Molina.

PHILADELPHIA, Aug. 11. (P.T.)—An appeal to the United States Supreme Court from the decision of the Pennsylvania Supreme Court, which held recently that Sunday professional baseball violated the Pennsylvania "blue laws" of 1784, will be prepared immediately, counsel for the Philadelphia Athletics said today.

CHEERFUL CHAFF

BY TIMES READERS

WRITE FOR THE "MOVIES" AND WIN GAMES PRIZES
The Los Angeles Times publishes a popular fun column, "Cheerful Chaff," consisting of the twelve best jokes submitted weekly by readers. Twice \$1 prizes are awarded each week, the names and addresses of winners together with prize-winning jokes appearing in the column.

Everyone invited to send in jokes. No formal letter is necessary. Just jot down your jokes, as many as you wish, sign your name and address and mail to "Cheerful Chaff Editor," Los Angeles Times. Jokes for the screen must not exceed thirty words.

Meritorious jokes too long or otherwise not adapted for screen use, are accorded a place of honor on the Times comic page, receiving a souvenir of acknowledgment.

"And what was daddy doing while the barber was cutting your hair, darling?"
"Oh, he was holding hands with a pretty lady at a little table." Winkled Johnson, 3921 West Seventh Street.

Fat: And why do you want to sell your nighthawk?
Mike: It's no good to me since I got a job as night watchman. Philip Hill, 207 Marathon Road, Alameda, Cal.

Fat: I think I had better marry and settle down.
Thin: Better stay single and settle up. John Dickson, 700 East Main street, Compton, Cal.

Fugitive: Quick, where can I hide? The police are after me.
Husband: Well, that's the only part of your anatomy that ever will sit up. Arnold G. H. Boda, Jr., 312 South Olive street, Anaheim, Cal.

"Jim, lend me a five-spot for a moment only for a moment."
"Quite sure you only want it for a moment?"
"Quite sure—only for a moment."
"All right. Wait for a moment and then you won't want it." Mabel Richmond, 835 North Elwood, Burbank, Cal.

Jesse: Can you keep a secret?
Peggy: I can, but it's always my luck to tell it to other girls who can't. Melvin Hansen, Et. 1, No. 24 D, Baldwin Park.

Wife (inspecting high-priced automobile): Oh, Jack, my heart is set on this car.
Husband: Well, that's the only part of your anatomy that ever will sit up. L. G. Lawrence, Baker Apartments, 845 West Tenth street.

Four-year-old Jane (after stethoscopic examination of her heart by specialist): What cute little telephone! What did my heart say to you, doctor?
M. Hulbert, R. N., care Y.W.C.A., 437 West Ninth street, San Pedro, Cal.

Jackie was learning French:
Nurse: Jackie, what is father in French?
Jackie: Plum.
Nurse: No, no, Jackie; it is pere.
Jackie: Well, I knew it was some kind of fruit.
Mrs. F. Sedding, Box 194, Pacific Palisades.

PASSENGERS TELL WHALE OF A STORY

Fifteen Monsters of Deep Said to Have Forced Ship Out of Course

NEW YORK. Aug. 11. (Exclusive)—Passengers on the Munson liner *Munargo*, returning from a twelve-day Canadian cruise told ship news reporters a whale of a story when the whale docked here today.

While traversing the Gulf of St. Lawrence, they said, the ship was forced out of her course to avoid a school of fifteen whales sporting gaily in the water and spouting gleefully at intervals. One whale, identified as Perce Rock by one of the passengers and word of the find was spread about the ship until everyone was at the rail watching the large mammals. Some of the passengers insist the number of the whales bumped their noses against the side of the ship.

The *Munargo*, another vessel of the same line arriving in port two weeks ago, reported a similar experience with a school of thirty whales off the New England coast. The *Lawrence* and the *Jerome*, the elementary school the captain stated, being only about sixty feet long.

TWO SUPERVISORS RESIGN POSITIONS

SACRAMENTO. Aug. 11. (AP)—Notices of the resignation of Supervisors in two counties was received yesterday by Gov. Young. They are N. P. Simont of the Fifth District in Sacramento county, who has resigned except as supervisor of Sheriff of the county—a vacancy caused by the appointment of Sheriff James E. Holahan as warden of San Quentin prison—and James F. Sexton as Supervisor of the Third District in Santa Barbara county.

INDIANA SUIT CALLS UP CONTRACT LAW

PORT WAYNE (Ind.) Aug. 11. (AP)—A law passed by the last session of the Indiana Legislature which gives judges power to enter declaratory decrees constraining a contract before it is broken so that the parties may know its rights, is involved in a suit involving \$16,000,000 held here by the Indiana Power and Light Company, which has been divided into two parts, the Willoughby Company and the Girard Trust Company of Philadelphia.

RUMOR OF NEW SHIP LINE ENTRY DISTURBS

On the heels of C. L. Dillman's imminent entry of a fleet in the interest of a shipper, there is an additional line of five modern ships for the same service, but not to conform to the intercoastal conference. As a result the ope of possible rate slashing and resumption of the old tariff war is stalking through steamship circles.

Although the report goes into some detail in revealing next month as the date of the newest line's entry, and declarations the ships are admirably suited to the run, names of port and ship are not given.

One Los Angeles steamship man, formerly associated in high capacity with a line which recently withdrew from the trade, admits he has no idea of the new line's name or the organizations militare de classe the dominio el lucro y el pille. Esto es que han convertido a las organizaciones militares de clase en hechos.

Consejo de la Cámara de Comercio de Los Angeles demanda este oficio, bajo contrato, a un hombre a China, a fin de que active allá nuestro comercio. Parece esto es poco completamente absurdo ni se me ocurren siquiera una medida que pueda ser tomada.

No hay hombres en China que puedan gobernar a China sin una organización militar, y a las organizaciones militares de clase le dominio el lucro y el pille. Esto es que han convertido a las visceras del país, y que se ha encendido, así del amo de la guerra, como del más humilde sirviente.

Expulsan de Mexico a un Periodista Estadounidense

CIUDAD DE MEXICO. Aug. 11—hoy ha sido expulsado del país extranjero pernicio, y cor. de acuerdo al Artículo XXXIII de la constitución. Joseph De Courtey, de la comisión de cuestiones extranjeras, que ha estado aquí desde hace once años como corresponsal del New York Times.

Aunque el reporte goes into some detail in revealing next month as the date of the newest line's entry, and declarations the ships are admirably suited to the run, names of port and ship are not given.

Upon arrival of the 18th ship already phy between two ports, splitting up meager offerings, and the entry of still more bottoms, especially those not maintaining conference rates, is anticipated with concern.

Full details are expected within the month, he indicated, and will be received with interest by the Los Angeles shipper concerned.

Upwards of 180 ships already phy between two ports, splitting up meager offerings, and the entry of still more bottoms, especially those not maintaining conference rates, is anticipated with concern.

Skipjacket and yellowfin are begin-

ning to run in numbers of Turtle Bay, 300 miles south of the Mexican border, and a dozen local fishing boats departed for this week, with intent to follow shortly. Seven hundred tons have been brought to San Diego packing plants in the last four days. Albacore are singularly absent as last year, and the canneries are expected to increase their pack of the other varieties available.

The government is understood to have abandoned its plan to dispatch the hopper dredge *Rossell* here from San Diego due to lack of funds. Filtering of mud from the dredge and possibility of developing new benches are said to make the *Rossell* impractical here.

California Petroleum's newly christened tanker *Winifred O'Donnell* left with oil for Seattle on her first trip under the new name yesterday and with Capt. Patrick Woods in command. He is an old Alaska Steamship Company pilot, who was a Los Angeles municipal pilot. Illinois laid him up several years.

FINANCIAL

NET PARAFFINE EARNINGS GAIN

Operations for Fiscal Year Shown in Report

Previous Period Exceeded by \$660,382 Total

Balance Sheet Reveals Strong Financial Status

Net earnings of the Paraffine Company, Inc., for the fiscal year ended June 30, last, after all charges including depreciation, Federal taxes and preferred dividends, amounted to \$2,177,059.55, compared with net earnings of \$1,516,976.66 in the previous fiscal year. Similar changes in the preceding fiscal year, according to the company's annual statement just issued by R. S. Shainwald, vice-president and general manager.

The earnings amount to 42¢ a share on the 444,458 shares of common stock now outstanding after giving effect to the recent 20 per cent stock dividend, and compares with net earnings equal to \$9.36 a share on the 161,958 shares of common stock outstanding in the year ended June 30, 1926.

After deducting \$1,029,147.50 in common-stock dividends for the year, \$1,137,912.00 was carried to the surplus account. Surplus as of June 30, 1926, was \$5,591,774, but this was reduced to \$5,000,533.26 last, with dividends of \$1,598,285.30 for the 20 per cent stock dividend and \$310,863.11 for premiums and expenses on preferred stock and 7½ per cent bonds retired.

STRONG POSITION

The balance sheet of the company discloses a healthy condition. Current assets amounted to \$7,091,869.81 on June 30, last, as against current liabilities of \$1,038,680.25, a current ratio of nearly 7 to 1, and a current margin of \$15,947,561.96.

During the last fiscal year the company's capitalization was changed so that the authorized capital now consists of 60,000 shares of 7 per cent cumulative preferred stock, of which none are issued, and 700,000 shares of common stock, of which 444,458 shares are issued. All of the 7½ per cent bonds have been called and there remains outstanding \$615,000 of 7 per cent bonds maturing in 1942.

The company, during the period, received dividends on its stock to the par value of \$418,500, thus reducing its annual fixed charges by \$194,268.75, which automatically becomes available to the common stock.

Additional parcels of tide lands were purchased at Monterey. The company now owns one piece of 178½ acres extending from the tracks of the Southern Pacific Company to the bay bulkhead line, giving it both rail and deep-water facilities at this its main plant. Approximately thirty-three acres are in use.

YEAR NORMAL

The fiscal year which ended for the company on June 30, last, can be considered as "normal." Mr. Shainwald said in the letter to stockholders: "Business, speaking generally, has maintained its volume, but due

OIL REPORTS REVEAL POLICY

Company Methods Vary in Treatment of Dividends and Drilling Costs; Tax Saving Possible

BY EARL E. CROWE

Quarterly reports of the oil companies covering the second quarter and the first half of the year disclose some interesting information on the tactics adopted to weather the storm in the oil industry. Some of the companies, both strong and relatively weak, are attempting to ride it out under full sail, others have hauled to for temporary shelter, and still others have sought complete protection in the quiet harbors.

California Petroleum is one of the companies that seek to stand by its position. After paying the regular quarterly dividend for the first two quarters, this company announced on Wednesday a reduction in the regular quarterly dividends to 25 cents a share. The management evidently considers it better business to conserve resources until the storm has spent itself, and utilizes the opportunity to strengthen its position in preparation for the new contests that will come when the market again begins to move.

Marland's operating deficit of nearly \$2,000,000 for the first six months of 1927 is attributed largely to the revised method of treating intangible drilling costs for the Federal income tax ruling last year. Marland's company has decided that the new method is more appropriate than the old, and has accordingly increased its quarterly dividends to 25 cents a share.

Resources of the T798 banks passed the \$26,581,943,000 mark for the first time, compared with \$23,699,147,000 on June 30, 1926. From the end of the previous year indicate a satisfactory rate of increase.

The question of financial statements is important at this time. Companies charging off depreciation, depletion and drilling costs for the full amount each quarter naturally turn out poor reports, considering the fact that the oil companies that make these charges annually, or only publish annual reports, have the opportunity to ride through the year without revealing the true state of affairs. The method of naming drilling costs as development costs is also important, as the recent Marland report showed.

METHODS REVISED

Marland's operating deficit of nearly \$2,000,000 for the first six months of 1927 is attributed largely to the revised method of treating intangible drilling costs for the Federal income tax ruling last year. Marland's company has decided that the new method is more appropriate than the old, and has accordingly increased its quarterly dividends to 25 cents a share.

Both Union Oil and Richfield have preferred to continue the payment of regular dividends, but have discontinued the payment of extras. The Richfield regular dividend of 25 cents a share compares with the new rate announced by California Petroleum. Richfield, however, cannot be considered as a company as California Petroleum, although the company's six months' report appears that this method is not used.

Union Oil of California and California Petroleum also follow this method. Union deducted \$5,100,000 in the first six months of 1927, while the company's first year of operation income for depreciation, depletion and drilling expenditures. California Petroleum's deduction from operating income for intangible drilling costs is approximately \$1,725,456. From the set-up of the Richfield six months' report, it appears that this method is not used.

to the enormous increase in manufacturing capacities and output, competition has been very keen.

"Directors have taken the unusual pains of maintaining the operations of the plants of the company in the best possible condition and have made such additions and improvements as seemed necessary to place the company in position to manufacture its merchandise at the lowest possible cost consistent with the maintenance of highest qualities."

Telephone Lien Issue Out Today

An issue of \$75,000 Standard Telephone Company of Illinois first mortgage Series A 6 per cent gold bonds will be offered today by Paul C. Dodge & Co., Inc., and Nichols, Dodge & Co., Inc., at 100 and accrued interest to yield 6 per cent. The bonds were issued on April 1, 1928, and are redeemable on any interest payment date on thirty-days' notice at 105 and accrued interest less 1 1/4 per cent for each year of expired life subsequent to August 1, 1928, but at least 101 and interest.

The company, incorporated under the laws of the State of Illinois, owns and operates telephone properties without competition in local and long-distance service in seven important counties of this State having an aggregate population of 300,000.

OUTLOOK FOR LEAD REGARDED BRIGHTER

RECENT PRICE UPTURN HELD WARRANTED; FURTHER ADVANCE FORECAST

Increased activity was noted in trade generally during the last week, with all lines reporting more orders for immediate shipment and fall orders fairly satisfactory, according to the weekly review of conditions in Los Angeles territory by the Bradstreet Company.

Department stores, while increasing their advertising, report that annual August sales are cleaning up considerable slow-moving stocks, and are in fair go-ahead. Chain-store grocers report increased business over the same time last month. Merchants in the beach cities report business below a year ago, although visitors outnumber those of last year. Buying is restricted to necessities.

Railroads report very good passenger and freight business. Building quite active and new industrial buildings with every kind of provision are in fair go-ahead.

The outlook is very bright for the balance of the year in this line with new plants materially increasing pay rolls. Most of new building is eastern manufacturers locating here to take care of western and export markets.

With weather conditions favorable, crops are good. Receipts of produce and fruit are heavy with a lower price for the last week. Tomatoes have been higher, and orange prices steady. Cotton, later in year, but the crop will be good.

Hallmarks report very good passenger and freight business. Building quite active and new industrial buildings with every kind of provision are in fair go-ahead.

The outlook is very bright for the balance of the year in this line with new plants materially increasing pay rolls.

With weather conditions favorable, crops are good. Receipts of produce and fruit are heavy with a lower price for the last week. Tomatoes have been higher, and orange prices steady. Cotton, later in year, but the crop will be good.

Branch Office of Bond House Opens in City

P. W. Chapman & Co., Inc., which recently took over the Pacific Coast business of P. W. Chapman & Co., one of the leading bond-underwriting houses of the country, announces the opening of offices in Los Angeles in the Van Nuys Building and in the office of R. Franklin Street.

The Pacific Coast company will maintain offices in Portland, Seattle, Tacoma, San Francisco and Los Angeles. The Los Angeles office has been established as an underwriting and a wholesale organization and will not at the present engage in retailing of securities.

The nationally known concern has specialized largely in the underwriting of convertible bonds and bonds of the Los Angeles district of Chicago and in the financial district of New York and maintains head offices in New York and Chicago.

Consumption has more than kept up with production as the latest retail trade figures show, but a very considerable stock of refined metal on hand. The latest estimate, as of May 31, is 53,483 tons, or approximately three weeks' supply at existing rate of consumption. The recent advance in price of copper that the market has been largely wiped out during the past three months and is probably at a negligible level at this time.

TRAFFIC OF BRITISH AIRWAYS REPORTED

NEW YORK, Aug. 11. (P)—The Croydon Aerodrome in England during 1926 served 26,500 passengers, more than half of whom were carried by the Imperial Airways, the Bankers' Trust Company is informed. The airways carried also 1,356,000 pieces of baggage and mail, and 1,292,000 miles. Four French companies carried 13,633 passengers, 1,888,900 pounds of goods and 339,400 pounds of mail, while in Germany civil aviators carried 56,288 passengers, 1,418,420 pounds of goods and 66,280 pounds of mail.

EARNINGS OF PUBLIC SERVICE CONCERN SAG

Net earnings of the Southwestern Public Service Company for the twelve months ended June 30, last, amounted to \$635,878, as compared with \$600,861 in the previous year, according to a report just issued by the company. Net earnings for June, last, aggregated \$62,905, as against \$62,497 last year. Gross earnings amounted to \$161,964 in June and \$1,518,518 in the twelve months.

STEEL ORDERS GAIN

NEW YORK, Aug. 11. (P)—Structural steel orders placed during the past week totaled 40,000 tons, against 30,000 tons the preceding week and 42,000 tons two weeks ago.

NATIONAL RESOURCES SHOW GAIN

BOND REVIVAL SEEN AS DUE

September and Autumn Months Expected to Show New Activity of Substantial Proportions

BY PAUL WILLARD GARRETT

(Copyright, 1927, by New York Evening Post, Inc.)

NEW YORK, Aug. 11. (Exclusive)—September and the autumn months will bring a revival of activity in bonds if any substantial proportion of business now on the fire and confidently expected by the underwriting houses materializes.

A reduction in the emission of new bond issues during the last two months and a simultaneous improvement in the money market combine to make the outlook for a lively autumn business favorable. The present lag of offerings probably will not continue beyond August.

New bond flotation for 1927 to date has been \$26,581,943,000, up from \$23,699,147,000 on June 30, 1926. From March 21 to the end of the previous year the total assets of national banks in the United States, Alaska and Hawaii amounted to \$26,581,943,000 on June 30, last, when a national bank call was issued, the Comptroller of the Currency announced today.

Resources of the 7798 banks passed the \$26,000,000 mark for the first time, compared with \$23,699,147,000 on June 30, 1926, up from \$23,699,147,000 on June 30, 1926.

Total deposit liabilities of \$21,775,123,000 exceeded those of June 30, 1926, by \$2,965,000,000. Demand deposits, including government deposits \$139,843,000, aggregated \$1,016,672,000, representing an increase of \$21,465,000 in the year.

Paid-in capital stocks of the reporting banks aggregated \$1,474,173,000, representing an increase of \$13,000,000 for the year. Surplus and undivided profits of \$1,765,366,000 were reported, compared with \$1,736,488,000 on June 30, 1926.

Cash in bank accounts aggregated \$1,018,000,000 on June 30, 1926, up from \$954,000,000 on June 30, 1926.

The percentage of loans and discounts to total deposits on June 30 was 75.0% compared with 65.28 at the time of the previous call.

Paid-in capital stocks of the reporting banks aggregated \$1,474,173,000, representing an increase of \$13,000,000 for the year.

The percentage of loans and discounts to total deposits on June 30 was 75.0% compared with 65.28 at the time of the previous call.

Marking the first important modern wholesale market to be established in the Los Angeles metropolitan district, the California Trust Company made yesterday that plans have been completed and financing arranged for a new wholesale market to be operated by the Central Wholesale Market Company, a corporation recently organized by the State Recession Project.

Financing for the project, which will consist of an issue of \$500,000 first closed mortgage 6 1/2 per cent sinking fund gold bonds will be offered in this market today by a bank group headed by Bond & Goodwin & Co., and Banks, Huntley & Co.

The Central Wholesale Market Company owns in fee approximately 150,000 square feet of land in the business district of Los Angeles, and the California Trust Company, Los Angeles, has delegated to the Central Wholesale Market Company the right to lease the land to the new market.

Plans call for a new building to be

Young Woman Leaps Four Stories When

INJURIES LIKELY TO PROVE FATAL

Mrs. Alice Miller Wanted in Wisconsin Institution

Jumps Rather Than Face New Term in Jail

Bail Bond Man Calls to Learn Truth of Charges

Rather than face charges that she is wanted at a criminal institution in the East, Mrs. Alice Miller, 24 years of age, leaped four stories from her home in the Hillman Apartments, 1610 Ingraham street, last night, receiving injuries which will probably result in death.

The woman received a basal skull fracture, a broken nose and a fractured arm in addition to possible internal injuries, according to Receiving Hospital physicians.

The story of the woman's hazardous jump was told to Detective Lieutenants Jarvis and Cullen by various witnesses, as follows:

GETS WORD FROM MILWAUKEE

Robert Seeger, representative of a bail-bond firm, declared he had furnished bail for Mrs. Miller on the 1st inst., when she was held to answer in Municipal Court on charges of grand larceny and pickpocketing. Yesterday he received word from Milwaukee that Mrs. Miller had been taken into custody again, and he was advised that Mrs. Miller, known there as Mrs. Mary Becker, had escaped a short time ago from the Industrial Home for Women at Taycheedah.

The bail-bond man said he agreed to see Mrs. Miller last night and investigate the charges, and suggested Mrs. Miller accompany him to the police station, which she agreed to do.

The conversation took place before Mrs. Helen Myers, Norman Myers and Mrs. Miller, all three of whom were on bail on various charges. Mrs. Myers being accused of grand larceny and pickpocketing and the men for vagrancy and idleness.

GOES TO CHANGE CLOTHES

Mrs. Miller went into another room to change to street clothes. Myers, who followed for moments later, to tell her, found the woman empaled through an open window, he said, he saw her crushed body lying four stories below.

Mr. and Mrs. Myers and Wilkinson made a formal statement corroborating Seeger's version of the affair.

Apparently the woman decided she would rather die than be placed in jail again," Detective Lieutenant Jarvis said after the investigation.

CROSS-COUNTRY ROAD SURVEYED

(Continued from First Page)

Kansas-Colorado line. The total unsurfaced road amounts to only 670 miles.

MOSTLY HIGH GEAR

The Pikes Peak Ocean to Ocean Highway, due to the Federal and State improvements, is announced by the office as a high speed route across the continent, with the exception of about five miles, a part of which is at the summit of the continental divide and a small part in Salina Pass in the Wasatch Mountains of Utah. The highway will connect the New York City leads through Reading and Harrisburg, Pa., Delaware, O. Mundis, Ind., Decatur, Springfield and Jacksonville, Ill., Hannibal and St. Joseph, Mo., Colorado Springs and Grand Junction, Colo., Price and Ogallala City, Utah, Las Vegas, Nev., Raton, San Bernardino and Pasadena to Los Angeles.

As a traffic way of scenic and historic attractions, this route is said to offer the motor tourist more than any other as a high speed road across the continent. The yellow line could obtain the needed additional revenue if it effected economies by using one-man cars and adopting an inner-zone system.

POLICE TAKE FIVE IN TWO RUM RAIDS

Asserted Hollywood Liquor Agent Declared Among Those Captured

Officers of the vice squad liquor detail operated at two addresses last night and took into custody three men and two women who were charged with liquor law violations, according to police reports.

A man giving the name of Dominick Gato, also, Capt. Wallace and Detective Lieutenant Leon L. and Fredie Myers asserted Hollywood Liquor agent, was arrested at 2810 Leward Avenue. He was booked on Wright Act possession and liquor sales charge. At the same address, Capt. Wallace, Alexander, 40 years of age, charging him with sale, transportation and possession of liquor.

According to the raiding officers, the arrest came through their investigation of the woman.

Apparently the woman decided she would rather die than be placed in jail again," Detective Lieutenant Jarvis said after the investigation.

PROPOSAL OPPOSED

H. G. Weeks, assistant general manager of the traction company, opposed these proposals on the ground that the people of the city want neither a road nor a rail line.

"Just as I am, I am not in favor of the main direct and shortest route. It passes through the eastern and western mountain systems are the lowest to be found with easy grades and fine alignment. The entire route is under maintenance during the past seven years more than \$45,000,000 has been spent on this route for permanent construction, and there are now \$5,000,000 worth of projects under contract to be completed by the end of this year."

She Tells Judge Husband Stingy and Wins Divorce

It was the theory of Charles Campbell, Orange county rancher, that women do not need any cash, his wife, Mrs. Goldie Campbell, told Judge Sprout in Superior Court yesterday.

"Just as I am, I am not in favor of this," urged Attorney Benjamin Lewis who with Attorney S. W. Hahn served as counsel for Mrs. Campbell.

"He was one of those men I am not in favor of this," she said. "There are many like him, who think that if a wife has three meals a day and is provided with a roof she ought to be satisfied." Mrs. Campbell said. "I scarce-ly have a nickel, and when I insisted he buy me some shoes he kicked my shins."

Judge Sprout thought this was a pretty severe case of cruelty and gave Mrs. Campbell a divorce.

TWO GIRLS ESCAPE FROM JUVENILE HALL

Two girls who were to have been sent to State institutions yesterday escaped from Juvenile Hall yesterday, according to a report to the Sheriff's office. The girls apparently escaped through a hole in the institutional fence, which was being repaired according to the report. They are Katherine Schmidt, 16 years of age, of 845 South Normandie street, and Rosell Williams, 17, who went to the home from the City of the Good Shepherd. The Schmidt girl was to have been taken to Ventura School for Girls and the other girl to the Juvenile School.

The Council sent the request to the City Attorney and the Finance Committee jointly for a report and recommendation.

RATTLERSHIP OF THE AIR

Battalions of the air. They are already parts of our military defense. A huge Curtiss airplane, carrying six machine guns and two tons of explosives took off and landed perfectly in time at Mitchel Field on Long Island. Armament experts, including Gen. James Foch, assistant chief of the War Service, were delighted with the conduct of the mechanical condor. Although the plane did not ascend more than 2,000 feet, it is capable of going up 6,000. All six of the planes on the Condor, which are so christened, are mounted in armored turrets and can be trained on a single target simultaneously at close range. It makes old navy men sick to look upon this giant ship of the air, for it forebodes—some time—the destruction of the world.

It is limited, and finally limited, to the surface of the sea. The time may not be distant when the old joke about the Swiss navy will be obsolete. Only part of the nations are favored with a sea coast; all nations border upon the great ocean of the air.—[Pathfinder.]

COUPÉ OR SEDAN

To buy a coupe or sedan, that's the question. If we get a sedan we'll have our friends along on a picnic; on the other hand, if we get a coupe we won't have to invite them [Pathfinder.]

INJUNCTION HEARING ON DAM WAITS

Court Action Directed at Low San Gabriel Structure Believed Superfluous

Hearing on the application of certain taxpayers for an injunction prohibiting construction of a "low dam" in San Gabriel Canyon for flood-control purposes, was continued until September 16, when it came up for hearing yesterday before Judge Mahon in the Superior Court.

Since the case was filed the cause of action has ceased to exist for practical purposes, the Board of Supervisors by resolution having decided to abandon the "low-dam" project and proceed with construction of a 425-foot dam in accordance with the original plans drawn by James W. Reagan, when he was chief engineer of the flood-control district. The applicants for the injunction are proponents of the Reagan plan.

In the meantime all work on the "low dam" was halted the day the injunction was issued, and suspended yesterday by consent of counsel for both sides. It is probable that the department will resume its work on the dam.

De Yager is charged with two counts of arson, growing out of his asserted activities in setting fire to two South Gate homes, to increase his revenue as volunteer fire chief in the suburb.

Thomas Boosie and J. J. Jenkins, former members of the fire department who have pleaded guilty to arson in connection with the case against De Yager, were to have been heard yesterday on their applications for probation, but the matter was continued to the 13th inst. owing to the failure of the jury in the De Yager case to report.

De Yager, charged by Dep. Dist.-Atty. Hill and Kemp, claimed that De Yager and his former codefendants set fires to structures in the suburban city in an effort to create community interest in the organization of a fire department.

De Yager was also brought out that members of the department received remuneration of \$2 each for every fire call to which they responded.

Rodgers pointed out that all large buildings have managers to direct telephone, janitor, waiters and other services, and he said that because of the great responsibility attached to the position the City Hall manager's salary should be \$10,000 or \$12,000.

The sum necessary for maintaining service in the new building, Rodgers said, should include fifteen uniformed elevator operators, forty janitors, carpenters, painters, watchmen, information clerks, engineer, electricians and telephone operators.

Manager Urged for City Hall When Finished

The Board of Public Works has taken under advisement the recommendation of G. L. Rodgers, research engineer assigned to the construction of the new City Hall, that the board appoint an executive manager for the new \$5,000,000 municipal building.

Rodgers pointed out that all large buildings have managers to direct telephone, janitor, waiters and other services, and he said that because of the great responsibility attached to the position the City Hall manager's salary should be \$10,000 or \$12,000.

The sum necessary for maintaining service in the new building, Rodgers said, should include fifteen uniformed elevator operators, forty janitors, carpenters, painters, watchmen, information clerks, engineer, electricians and telephone operators.

CHURCHMAN FROM INDIA LANDS HERE

Giant Belgian Missionary Priest Former Football and Cricket Star

"They say the boy knows his onions—I mean, his India," laughingly corrected Rev. Father T. Van Der Schueren, speaking of himself, on his arrival from New York on the Panama liner Ecuador.

The boy is the father, a patriarchal type with great flowing hair, who towers six feet four and despite his clerical calling was for years the greatest football player and cricket player in India.

For forty-two years he has been a Belgian Jesuit missionary in India. Recently his lectures have brought him fame. He will be here again after a short trip to San Francisco.

It was pioneered that some weeks ago he received \$1,000, but very frequently she is unemployed, so that her yearly compensation will not amount to a great deal. She declared that the expensive automobile she is driving is owned by her mother, Mrs. Martha M. Brown of 3558 Beachwood Drive.

James Walsh, 25 years of age, an insurance agent for the Pacific Mutual Life Insurance Company, was arrested yesterday by District Attorney's investigators upon a complaint charging two counts of embezzlement and one of grand larceny. The complaint was filed by Dep. Dist.-Atty. Russell and Waller, among other things, that he obtained \$400 from John Newton Russell of the home office agency, an associated insurance concern, with the understanding that he was to buy stock with the money and return the stock, as security for a loan.

In the World War Father Van Der Schueren did heroic work in England in caring for Belgian refugees and assisted the Belgians knighted him with the Belgian Order of Leopold.

The King of England had previously made him a first-class knight in the Order of Kaiser-I-Hind, meaning Emperor of India, in honor of his educational work.

Lithia as a youth despite his sixty-four years, the giant cleric was asked how he kept so physically fit.

"A good conscience helps a lot," was his rejoinder.

James Walsh was placed in the County Jail to await arraignment in Municipal Court.

GERMAN WARRIOR WILL PAY HONOR TO NATION'S DEAD

Count Felix Von Luckner, good-will emissary of the German government and captain of the sea raiders Emden in the early days of the World War, will place a wreath at the foot of the soldiers' monument in Pershing Square on Sunday morning at 10:30 o'clock. The Count's crew will be buried tomorrow at Rosedale Cemetery with services at the Central Chapel, 1339 South Hope street, at 1 p.m.

Mrs. Mary Jane Weller Riggle May, 1879 as the wife of U. R. Riggle, who died in 1885, and in 1890 she married Christian May, who died several years later, died Wednesday night. She leaves one son, Elmer W. Riggle, an oil operator, two brothers, L. W. Weller of Glendale and O. C. Weller of Portland, Ore., one sister, Mrs. Miller, and a nephew, Dana Weller. Her home was at 1449 South Norton avenue.

A sunburn man says that when his first baby arrived he passed around the cigars, but now that the fifth is approaching he's patching the hole in the crown in order to pass around the hat.

W HITTIER REVISED
Maud Muller on a summer day naked the meadow went with hay. The raking was not quite exact; She did it in a movie act.

The director did some raking, too. Which caused poor Maudie to hoo-hoo. The brute just raked her fore and aft When in a serious place she laughed.

B EST INFORMED
Perhaps the most surprising thing about the Sacco-Vanzetti case is the absolute certitude of certain groups in Budapest, Marseilles, Vera Cruz and Buenos Aires that they know twice as much about the merits of it as do the people of Massachusetts.

C ORRECT FRENCH
Whether or not the French lift the Davis Cup this year it was considerate of them to send over some players whose names we can pronounce with confidence. LaCoste is a name it would be rather hard to go wrong on and anyone who can pronounce "crochet" can pronounce Cochet. But there's still a good chance that Bill Tilden will pronounce them all harmless.

T HE NIGHT SCHOOLS
Night schools for adults—the schools being located in the heart of the community, are now a part of the accepted educational program in any progressive city. It is becoming an obligation of the State to meet the demand for knowledge, no matter at what age it may be manifested. If the worker would supplement his schooling or specialize in any field of information it is well that the opportunity and the educational machinery should be at hand. It must make for better citizenship. Ailse of learning should be open to all.

H OME, SWEET HOME
The head of the Federation of Women's Clubs asserts that the American home is at its best today. Leave it to the women's clubs to find out. The ladies may not get home very often, but when they do they know the home to be a top-notch. As a place to go away from and come back to, there will never be any dangerous substitute for the American home. It may be at the top of a forty-story apartment-house or it may be in a cabin in Topanga Canyon, but it will still be home to somebody. There will always be a mellow spot in the bosom for its recognition.

T HE TRUTH IS COMING OUT
Something of the real character of the long-contested campaign of slander directed by certain interests of Owens Valley against the city of Los Angeles has been brought to light by State Banking Superintendent Wood's positive declaration that the Inyo County Bank was wrecked from the inside and that embezzlement and neither frozen loans nor decreased deposits brought about the condition that forced its doors to close. This official finding gives the direct lie to the notices posted on the doors of the Watterson banks by bank officials blighting Los Angeles for their failure.

This gratuitous attempt to make the city responsible for a condition the real truth of which must have been known to the officials has a strong family resemblance to the outgoings of a clique which has sought to arouse the indignation of the State and nation against Los Angeles. The same crowd has charged Los Angeles with wrecking Owens Valley for its own selfish purposes by withdrawal of its irrigation water, with refusing just compensation for the property it took and refusing to make proper reparations to the Owens Valley citizens said to be damaged by the city's operations. These slanders were repeated as truth at Sacramento on the floor of the State Legislature. They have been published in Los Angeles by the personal organ of City Boss Parrot, whose motives in this matter have never been satisfactorily explained.

No reasonable person can doubt that these attacks, picturing Los Angeles as the wanton despoiler of an innocent and helpless community, directly inspired the several dynamitings of the Los Angeles Aqueduct, which brings the city water from Owens Valley, a series of outrages without parallel in history. The false statement posted on the doors of the Watterson banks was directly in line with previous false statements of the same nature and was calculated to stir up renewed and intensified bitterness against the city. To what lengths might it have encouraged the dynamiters to go had the facts not been exposed is a matter for conjecture.

The State official's findings, resulting from careful investigation of the bank's affairs, are likely to carry considerably more weight than any statement from either interested party to the controversy. Not even in Owens Valley can Supt. Wood be accused of bias in favor of the city.

Indirectly Supt. Wood's announcement will be accepted in neutral quarters as tending to substantiate the previous declarations of the Los Angeles water department as to the merits of the controversy. Hitherto these statements have been largely nullified by the clamor of the valley malcontents. In vain did the department show by figures that its land purchases were at extremely high valuations, in vain point to a city pay roll of \$100,000 monthly in Owens Valley, in vain point to light and power furnished to the valley towns at city rates, to improved roads, to tourist traffic brought about almost directly by the city's operations. In vain was it shown time after time that Owens Valley as a whole was increasing in prosperity and wealth. None of these things was able to stop the vilification, with the result that voices in all parts of the State, even in this city itself, were raised to excuse the series of dynamitings and other outrages committed against the Aqueduct.

The rededication of the restored Santa Barbara Mission, the fiesta of "Old Spanish Days," the pageantry, the ringing of the mission bells, the mingling of the colors of America and Spain are more than a passing show to please transient crowds of sight-seers or to impress a holiday throng with the ritual of an ancient church.

They are evidences of the faith in our foundations which beneath the surface of things material still lies rooted in the heart of California.

To Santa Barbara has been given the unique honor of emphasizing this spirit, sometimes in other of our cities so hidden under material garments as almost to be lost. And before the ancient pride and historical renaissance of her sister city Los Angeles stands at salute.

To the thousands who assembled before the mission bell towers as the city's annual fiesta was inaugurated with praise and thanksgiving for the restoration of her ancient house of worship, the colorful picture was no less impressive because it spoke in the language of the past to those who are divided against the city.

It told, indeed, the story with an interest not to be resisted, because "Old Spanish Days" to the people of Santa Barbara is not a three-day festival to be paraded once a year and then warehoused till another August rolls around, but a continuous performance observed in spirit and in fact in the architecture, atmosphere and daily life of the city.

And this spirit has conferred an immortality on Santa Barbara equally measurable with that conferred by population, industries, enlarged city limits, assessment values and material development on mighty world metropolises.

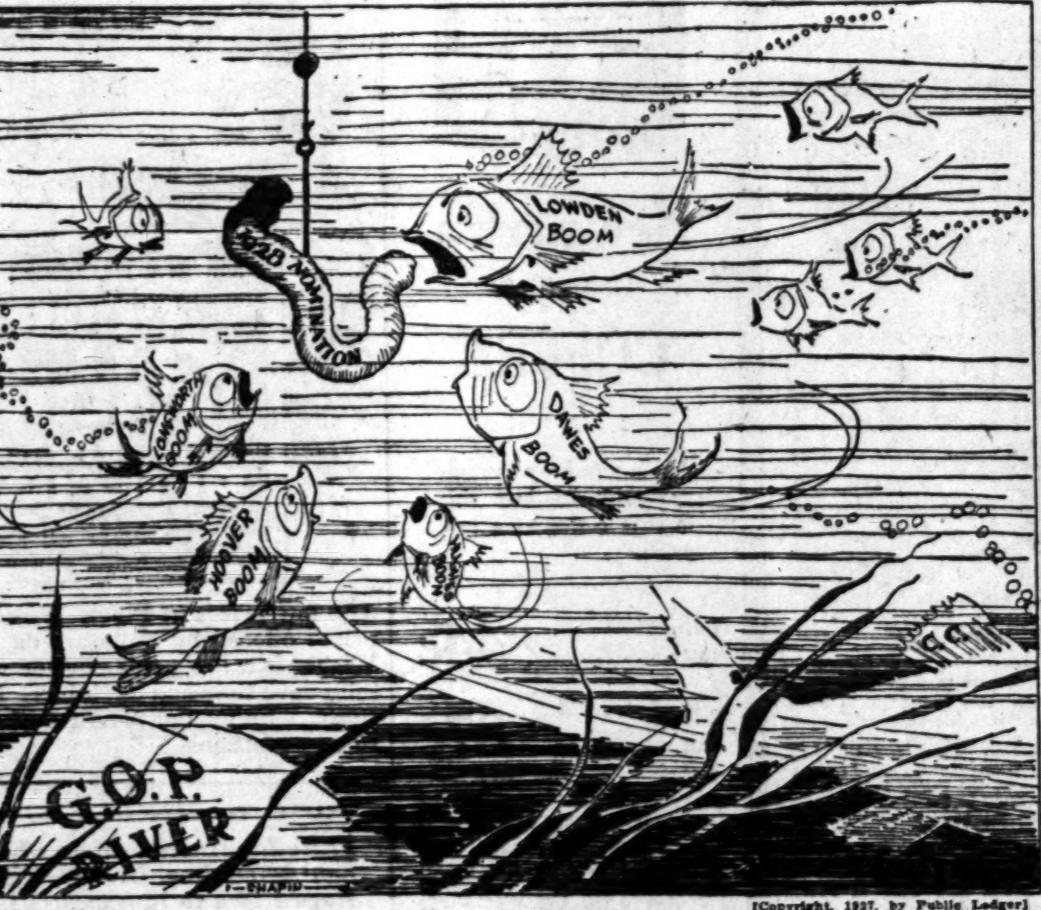

N OT GOOD LOSERS?
A Wall street broker, writing anonymously in Collier's, makes the unfaltering assertion that women are pokers. It seems that the fair sex is very unsatisfactory to deal with from a broker's viewpoint. They are fine winners, and poor losers. In fact, most of them, even those of high financial and social standing, will resort to trickery and falsehood in order to squirm out of a loss. It is an uncommon thing, he maintains, for a feminine client to insist that she planned in in order to sell her stock several days previously, when a margin is called for. There are exceptions, of course, but taken by and large, the broker looks upon women clients with dark suspicion and deep antipathy.

This matter of posting more margin appears to be the one thing that a lady cannot do with equanimity. Men who insist upon trading in the stock market and show themselves as slow about coming through with more margin are designated as "welchers," but this word is not applied to the fair sex. The broker concludes his diatribe against women with the assertion that he has two pleasant recollections of them in his business life. One of the memories is of a client twenty years ago, and the other more recent. All of the others caused him naught but grief and pain.

He is sure that women act so peculiarly just because they are women, and accustomed to being indulged. But the tremendous number of women who have made a success in business and professional life seems to prove that he was just unfortunate in his dealings with women. Most of his clients came from the sheltered class, and were not accustomed to the give and take of the business world. Being of a conservative nature, woman naturally makes a poor gambler, and cannot lose without emitting a few moans. She likes to see something tangible for her money, which is one reason why even the wealthiest of women usually give a waiter a niggardly tip or none at all. But those who are thrown into the business world long enough to secure their training there, learn to suppress these feminine reactions so successfully that after a time they are eradicated entirely. They can lose gracefully, too, although they undoubtedly suffer a greater pain than a man does when fate turns against him.

H OME, SWEET HOME
The head of the Federation of Women's Clubs asserts that the American home is at its best today. Leave it to the women's clubs to find out. cultural output by better methods of cultivation.

Considerable help may come from synthetic chemistry and just as we have largely relieved the silkworm from his job, so we may relieve farmers from the necessity of raising some crops now considered staple.

G ET AN ANGORA

There isn't exactly a shortage in Angora goats, but at the same time a government bureau intimates that there should be a lot more of them in the land. There is a large and rising demand for mohair—which is the fleecy product of the Angora herds. We are not producing half as much as we need and it is thought there might be good profit in an extension of the Angora industry.

There are said to be about 300,000 specimens of this brand of goat in the United States and nearly 25 per cent of them are in California. They can perhaps be better raised in this section than in any other division of the country. The experts say that to assure the quality of mohair is no such thing as wild justice. To be wild in the way indicated is to be excited to frenzy or distraction.

While justice, if it really is justice, is cool, calm and deliberative. It is impartial. Its rewards or punishment are allotted according to principles or recording to the principles of law or right.

Such being the case, as no ethical mind will dispute, where does the vengeful dynamiter stand when in his crafty, cowardly way he hurls his bomb or discharges his terrible explosive to cause that injury to person or property the infliction of which he regards as "playing even," but which is merely the expression of a mind obsessed by a desire for retaliation upon those whom he knows he cannot injure by recourse to the law, as he has no law on his side?

He stands to the crude, primitive stage in which the savagery of the jungle found themselves thousands of years ago. He is a throwback from civilization, headless of its moralities and defiant of its laws. By the higher representatives of our modern social life he is regarded with abhorrence, while even in common people they produce a shuddering moral recoil.

A man can have but a faint conception of justice when by his acts of lawlessness he contravenes the very spirit of justice; and those who condone those acts are hardly in a better case; for the base satisfaction they take in them tends to deaden the spirit of the fair-minded.

It is idle for the dynamiter to consider what he regards as the merits of his case, for by his acts he virtually acknowledges that it has no merit.

The community in which he lives may shelter him for a time and he may escape the clutches of the law and never feel its punitive hand, but from general public condemnation and from whatever vestige of conscience may remain in him he will not go unscathed.

By James J. Montague

We daily seek to turn new pages in the development of man.

We fondly fancy that our age is the very best since time began.

But when with lofty pride we mention the pretty figure that we cut in style and ethics and invention

The antiquarians say: "Tut! tut!"

We say the mode in women's dresses

which every day becomes more smart.

With less material—expresses

The very newest word in art.

And then some deeply lettered student

Arised sternly to aver.

That women were still more imprudent

Regarding railroads down in Ur.

We mention that our chefs are able

With all the world on which to draw,

To eat a vastly better table.

Than old Luciferine ever saw.

And then we're told beyond a question,

By some old Latin-quoting cuss—

That Romans died of indigestion.

In half the time that it takes us!

And probably if we should utter

A boast about our radio,

And how our aviators flutter

Across the sea through fog and snow—

We'd find out to our consternation

How all these things are far from new.

By quite authentic information

That all the ancients had 'em, too.

The Seashore

LOS ANGELES, Aug. 9.—[To the Editor of The Times:] Permit us to express to you the appreciation for the timely and expressive cartoon appearing in The Times on last Saturday.

It "hit the nail on the head" more than anything that could be said in a half dozen chapters and is in itself a solemn call to a slumbering public as to what is taking place on our beaches.

The League for the Preservation of the Public Beaches has been formed to do what it can to remedy the situation in arousing the people to that heritage that is being taken away from them and believes that, proceeding along intelligent and co-ordinated lines, it will be able to accomplish something for the benefit of those who view with alarm the encroachment of private interests.

It is a question which is of vital concern to every man, woman and child within our boundaries at the present time, to say nothing of those hundreds of thousands who are turning their faces toward the setting sun.

And, further, there should be no individual effort required, but the movement should have the undivided support of every public club and association, of every large industry in Southern California, to the end that an aroused public opinion will secure the necessary action by our State and government officials to once and for all determine those

NEWS OF SOUTHERN COUNTIES

SANTA BARBARA FIESTA RECALLS SPANISH DAYS

Spectacular Pageant Makes Real Early History of California With Color and Drama

BY BURTON L. SMITH

SANTA BARBARA, Aug. 11.—All of the colorful romance of California's early history was made real here today in a spectacular pageant wended its way through the city at the delight of thousands of interested spectators. It was without doubt the most complete event of its kind ever attempted in the Southland. Marchers, horses and floats so skillfully and themselves as to present the outstanding historical events connected with the discovery and progress of the country and brought home as nothing else could the tragedy and beauty, the pleasures and hardships, the hopes and disappointments of those who strove to create a civilization here in the shores of the Pacific.

Events marked the opening of Santa Barbara's annual Fiesta which began on June 10. The time and atmosphere were all set out of the week of the fiesta.

It is the man who can get away without letting money get us.

mericanism: Howling because it's cost 70 cents a dozen, paying a dime's worth of gin will be a murmur.

od intended for man to do twice such listening as talking. That's why we gave us two ears and one mouth.

all the FRESH TOMATO flavor

Fresh, plump, ripe tomatoes, grown from Heinz own pedigreed seed, then simmered down to a thick, rich essence, temptingly seasoned and spiced to perfection. That's Heinz Tomato Ketchup—the Ketchup that adds such a delightful flavor to cold meat, fish, and so many summer dishes.

This wonderful flavor comes from Heinz skill and painstaking care, from the raising of the seed itself—to the buying by Heinz own men of fine spices where they actually grow. You will enjoy foods as you never did before when you eat them with Heinz Tomato Ketchup. • The taste is the test.

TIMES WANT ADS

SOCIETY

BY JUANA NEAL LEVY

One of the delightful affairs of the week was the luncheon with which Mrs. John Page Crutcher entertained yesterday afternoon at the home of her parents, Dr. and Mrs. Dudley Fulmer, in Windsor Boulevard, in honor of Miss Doris Braly and Mr. Hollister, while the following day, Mrs. Harry Robinson and her niece, Mrs. Philip Miles Chapman, entertained with a beautiful luncheon at the home of the former in Eider Way, Beverly Hills, with Miss Braly as special guest of honor.

The tables were arranged in the lovely gardens of the Robinson estate, two large tables being placed and decorated over by the hostess. Braly was featured afterward. Many other affairs are being given for Miss Braly and Mr. Hollister before the wedding, although the dates have not yet been fully decided upon.

Home Again

Mr. and Mrs. Charles A. Starnow of 505 South Harvard Boulevard, have returned home after a delightful six weeks' trip. They motored to Seattle and took the steamer there for Alaska where they visited in the Yukon and stopped for several days at Fairbanks.

The news came as a perfect surprise to the guests, the secret having been carefully guarded.

The house is beautifully decorated with late summer flowers and the table was massed with a low plaque of many colored blossoms, blue predominating.

Those included were Mrs. Crutcher, Miss Braly, Mrs. Margaret Miles, Miss Polly Schoder, Miss Deborah Bixby, Mrs. Philip Miles Chapman, Miss Betty Bettinger, Mrs. Edward Dryden Thompson, Mrs. Allen Burton, Miss Peggy Quinlan, Miss Mary McComb, Miss Carolyn Cochran, Miss Maxine and Sophie, Miss Evelyn Garry, Miss Madeline McGarry, Mrs. Leland S. Ross, Mrs. Howard Cunningham, Mrs. John Moore Schmoide, Miss Alice Hicks, Miss Katherine Wigmore, Mrs. George Wigmore, Mrs. Victor Forve, Mrs. Frederic Kayser, Mrs. Robert Crutcher, Mrs. Robert Bundy, Mrs. Douglas Bundy, and Mrs. James A. Crutcher, and Miss Fulton.

Miss Fulton is to be one of the Braly-Hollister entourage and is planning to entertain in honor of Miss Braly before the wedding. Mr. and Mrs. Custer (the former formerly Miss Margaret Fulton) since their return from the wedding trip have been making their home in Hermosa Beach. Miss Braly has chosen Miss Mar-

The marriage of Mrs. Cora Belle Jackson of Alhambra to James C. Manning of Alhambra, was solemnized Sunday, the ceremony taking place at the home of the bride's brother, Howard Bowring, 431 Summit street, Pasadena; Rev. George M. Morrison officiating. The bride wore a white dress with crepe de chine, her only ornament being a shoulder brooch of pearls.

The wedding celebrated the sev-

enth anniversary of the bride's father, James P. Rowins,

the members of the family having gathered for the birthday party and

the wedding was a complete surprise to them all.

Miss Browning is well known here,

being one of the first members of

Daily Fashion Hint

Prepared Especially For This Newspaper

VERY YOUTHFUL AND CHIC

A charming model is this for a fifties or a muslim. A two-piece gathered skirt joins the long, straight blouse at a low waistline, the skirt being gathered at either side of the front. Cuffs, collar and pointed lapels, contrasting material, and a touch of embroidery on either side of the front of the blouse gives it a distinctly Parisian touch. Medium size requires 3 pieces 39-inch length and 36 inch dark material.

Pictorial Review Printed Pattern No. 3041. Sizes 14 to 18 years and 34 to 44 bust, 45 cents. Embroidery No. 13119, blue or yellow transfer, 30 cents.

DANCER TO OVERLOOK WOUNDING

Joyelle Joyner Declares She Will Not Prosecute Husband in Shooting

No complaint will be asked by Joyelle Joyner, motion-picture dancer, against her husband, Dudley V. Brand, charged with shooting his wife in the left arm Wednesday night after a domestic quarrel at the home of the dancer, 4445 Kingsway car crash yesterday near Seventeenth street and Menlo avenue which took place, police reported, as an outbound train, "Mormon," ran into an oncoming train. Mormon, William M. Brahm, 31, years of age, of 2833 Third street, said, according to police, the sun was in his eyes and he did not see the signal flag of the train until too late.

Jesus Twombly, 40, of 1185 West Ninety-first street, who suffered a fracture of the pelvis, was the most serious hurt.

The motorman suffered a cut of the forehead. Mrs. Augusta Warner, 55, of 1180 West One Hundredth street, suffered a knee injury; Lillian Jones, 44, of 1129 South Vermilion avenue, broken leg; John M. Phillips, 30, of 1128 West Ninety-second street, bruises; Helen Jaeger, 60, of 1108 West Ninety-first street; Moses Vonstein, 59, or 548 West Forty-third street, bruises, and Eula Daniel, 36, of 667 West Twenty-fourth Street, other women were slightly hurt but refused medical aid. Those named were treated at Receiving Hospital.

The City Council having voted it

to stand trial on a charge of assault with intent to murder Jay Lyngar, 16 years of age, and on two lesser assault charges, at the close of a preliminary hearing before Justice Elmer G. Gibbs.

Witnesses testified that Tracy had been drinking heavily and flew into a rage Sunday, shooting at his wife and young Lyngar, wrecking his house and finally beating the youth unconscious before he was overpowered by the boy's father, J. P. Lyngar.

Jay Lyngar said that he attempted to shield Mrs. Tracy when the officer chased her into the Lyngar home a door or two away, and that later he drove her to the beach in her automobile so that she might get away from her infuriated husband. He denied that they had gone to a hotel.

On their return, the boy said that Tracy had a cut on his hand and held it in his hand as if in friendly greeting. When young Lyngar clasped it, the policeman knocked him unconscious with a blow from his fist, the boy testifying that he was not aiming at Tracy's father.

Tracy at present is serving a thirty-day sentence in the Pasadena jail on an intention charge which he originally filed against him after his outbreak.

OUR HISTORY IN PICTURES

IN 1851 A TREATY WAS MADE AT FORT LARAMIE, WYOMING, WITH THE SIOUX, CHEYENNES AND ARAPAHOES TO WIN THE GOOD WILL OF THESE POWERFUL TRIBES, AND SECURE PROTECTION FOR THE CARAVANS OF WHITE SETTLERS PASSING WESTWARD THROUGH THE HUNTING GROUNDS OF THE INDIANS.

UNDER THE TERMS OF THIS TREATY, THE WHITES WERE TO BE ALLOWED TO CONSTRUCT ROADS THROUGH THE INDIAN COUNTRY, AND PASS OVER THEM UNMOLESTED. IN RETURN THE INDIANS WERE TO RECEIVE \$18,000 A YEAR, TO BE PAID IN BLANKETS, CLOTHING AND RATIONS.

792 Treaty of Fort Laramie, 1851.

by J. CARROLL MANSFIELD

THE WHITE MEN WANTED THE INDIANS TO ADOPT CIVILIZED LIFE, AND BECOME PEACEFUL FARMERS AND HERDSDMEN. BUT THE RED MAN DID NOT TAKE KINDLY TO AGRICULTURE, NOR TO THE CIVILIZATION OF THE WHITE MAN.

HE INDIAN REGARDED TILLING THE EARTH AS WORK ONLY FOR SQUADS, AND NOT THE DIGNITY OF A WARRIOR. HE REFUSED THE WILD, FREE LIFE OF THE PLAINS, WHICH HE CONSIDERED HIS BIRTHRIGHT. DESTRUCTION OF THE INDIAN.

SUPPORT GIVE HIGHWAY PL
Council, Bay and V
Delegates Meet
Link San Fernando
Boulevard Project

members of the Los Angeles and county officials a luncheon yesterday of 24 invited guests from Long Beach, the San Fernando Valley, and the Sepulveda project. The luncheon was held at the Seaside Inn, and was arranged by the chamber of commerce branch of the Los Angeles Chamber of Commerce, Brentwood, Monica Canyon, and Pacific Palisades.

ROUTE INSPECTED
members took the guest portion of the Sepulveda route, which crosses High Way at the Canyon, and taps the valley south of Van Nuys. They all rights of way have been obtained out at the mouth of the canyon, and the route is being surveyed for the harbor direct route between Valley, the Los Angeles River, and Long Beach. the Sepulveda project, which is to be completed last May in the Los Angeles area.

SPAKERS PRESENT
and four were a luncheon at Webster Room Hotel, Rice-Wray, Saenger and Goldstein. Other speakers and representatives present were P. C. Johnson, chairman of the antelope committee of the Los Angeles Chamber of Commerce; Superintendents A. J. Foster, president Sepulveda Boulevard Association; Carl F. Shindler, of the South Sepulveda project; James Goldstein, of the Van Nuys Chamber; George P. Ladd, university branch chamber, secretary Venture Chamber; A. V. Dietrich, manager; D. O. Horowitz, manager; W. D. McCutchan, manager; W. H. Raymond; Ray O. Long Beach Regional Project; J. A. Sneed, Sepulveda project; Cal Myer, secretary of the Sepulveda project; Mrs. William Williams, Mrs. George Burge, Jack Ziegler, Mrs. A. E. Dieterle, Mrs. Frank Melville and others.

A Castle of Your Own

Is anything quite so satisfying as that secure feeling when you own the home you live in? It may be a mansion with gardens, or a modest bungalow vine-covered—but it's YOUR castle, and there you can reign supreme. In case you haven't reached that stage of independence, let the real estate column of Times Want Ads direct you to some of the charming already-built homes for sale. Terms are usually as easy as rent.
